Text Area (Long)	Cover Letter	Length: 32,768 # of Visible Lines: 6
Picklist	Status	Picklist values: • New • Review Resume • Phone Screen • Schedule Interviews • Extend an Offer • Hired • Rejected

Master-Detail Relationship:

- It is a strongly coupled relationship among Salesforce objects, which means if a master record gets deleted, then the child records associated with it are also deleted.
- In this type of relationship, the parent record controls the behavior of the child record regarding visibility and sharing.
- It means the security setting of a parent object applies to the child object.

Master –Detail Relationship

- When there is a master-detail relationship between two objects, you can create a unique type of field over the master object, called **Roll-up summary**.
- A roll-up summary field allows us to calculate values from child records, such as the number of child records linked to a parent record.
